Serving the society since 2011

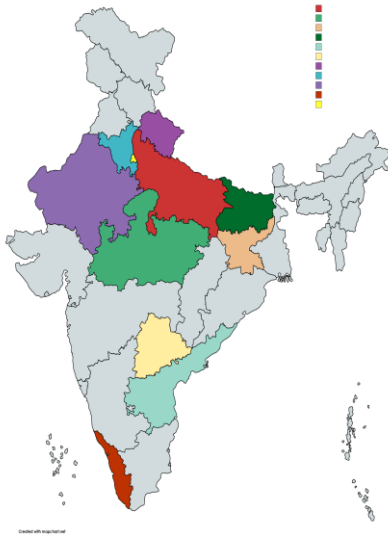

National Fellowship for Peace and Learning 2023-24

Princeton Foundation, a global non-profit organization invites applications for the National Fellowship for Peace and Learning.

1. The fellowship is open to girl students selected/enrolled in a UG/PG course at a government college in India.
2. The fellowship covers full or partial tuition fee and will be deposited directly in the college account.

Internship and Mentorship:

In addition to the fellowship, we also organize paid internships for selected students and provide a mentorship program to kindle a spark within the winners that will sustain amidst every storm of life. These programs are structured to cultivate the winners of Fellowship for Peace and Learning as socially responsible professionals and future leaders of the world.

Sub: Announcement of the National Fellowship for Peace &
Learning 2023-24

Dear Prof Tandon,

We are reaching out to you to share fellowship opportunities for meritorious girls admitted in UG/PG courses at your prestigious institution.

We have been running 'Women Empowerment through Education' program since 2011 and in the year 2020, it expanded to the National Level. So far, we have awarded approximately 300 fellowships to students admitted in various government institutions in India.

In addition, we have been systematically expanding our women empowerment endeavors to cultivate our fellowship winners not into only successful professionals but also holistic and socially conscious future leaders of the world.

Internship: Princeton Foundation has now started organizing Internship opportunities for our fellowship winners. These opportunities help the winners earn while they learn, get real world work exposure, receive professional mentorships from the

executives / researchers, and get the opportunity to build network with potential future employers. Several students have now joined internships in US companies as well as research

organizations in the fields spanning Computer Science, Information Technology, Biotechnology, International Relations etc.

Mentorship: In addition to fellowships, Princeton Foundation offers mentorship to cultivate the awardees as holistic, socially responsible future leaders of the world. Our unique Mentoring Program is designed to inspire & empower every girl through holistic development and to enable her to contribute towards the peace, prosperity, and well-being of the family, the nation, and the world at large. The uniqueness of our approach is in our “personalized” mentorship, a lifelong endeavor structured to cultivate every girl into a socially responsible professional and conscious leader of the world. The mentorship is rendered by highly accomplished global women leaders who themselves are role models in their own field, paving the way for others.

About us: Princeton foundation for Peace & Learning is a 501 (c)(3) global non-profit organization registered in the USA. We started the philanthropic work in 2011 in Varanasi, India with focus on Women Empowerment through Education. Now we have expanded this program to national level in India. In 2016, we also initiated our endeavors in the fields of Healthcare, and World Peace. Details of our endeavors are available on our website. We would be happy to address any additional query you may have.

We look forward to collaborating with you on these humanitarian endeavors and shaping the evolution of our next generation.

Thanking you

Dr (Mrs) Raminder Pathak

Chairperson

National Fellowship for Peace & Learning 2023-2024

Selection Criteria

National Fellowship for Peace & Learning is a program to support meritorious girls who have braved all adversities to pursue higher education. The program is open all over Bhartvarsh to students selected / enrolled in a UG/PG degree course in any government college.

- ▶ Each student must submit the application through the application portal located on our website homepage. Our selection committee will shortlist the students and will send the list to the college/institution head for approval.
- ▶ The fellowship funds will cover college tuition fee of the selected student.
- ▶ Fellowships will be awarded to girls selected in a government college. Being from a 'Below Poverty Line' family should ordinarily be sufficient to receive the scholarship. However, special cases can be considered by the selection committee if a candidate is exceptionally brilliant, and her family is not able to support her studies (though not a BPL family).
- ▶ Selection of the students will be based on their demonstration of -
 - ▶ Good academic achievement.
 - ▶ Financial need, and
 - ▶ Vision and commitment to serve the society.
- ▶ Fellowships will be renewed annually based on academic performance. If the winner does not meet the criteria in any year, her fellowship will be discontinued, however, it may recommence from a subsequent year, if the criteria is met. Decision to discontinue / recommence would be taken by our fellowship selection committee and would be final.
- ▶ Fellowship funds will be awarded only for the normal duration of the course, with or without breaks due to detention or voluntary skipping of a year.
- ▶ **Pay Forward:** All recipients are required to pledge that they will commence supporting at least 3 other girls to complete college / vocational education, within a time limit of 3 years after completing their own education. The Foundation would connect them to such deserving girls.
- ▶ Fellowship money will be deposited directly in the college account and would not be given to the student. If the student has already deposited the fee, it is upto the college administration to reimburse it to the student or use it for student's next year fee.
